- 2.4.2** After registration of the horse's name, including a breeder's prefix, neither the prefix, or the name, can be changed without the agreement in writing of the breeder *and* the Registrar, and on payment of the fees then in force.
- 2.4.3** Should an owner request the change of a name and/or prefix, and the breeder concerned is unavailable or unwilling for whatever reason to exercise his or her discretion on the matter, then the Committee may decide the case on its merits. In such cases the Committee will be guided by matters relating to breed development, and not those of a commercial nature, and its decision will be final.
- 2.4.4** The registered name and prefix of a horse, as it appears within the stud books and registers of the TBF, will be that which is used on all official documentation, show entries and catalogues and any like publication. This does not preclude the use of other designations in other competition spheres, or commercial transactions not associated with the TBF. Designations registered before the making of this Rule remain unaffected.
